4 Malls

1 Suggested Answer Key

I don't go shopping very often; maybe once or twice a month. When I do go shopping though, I like visiting large shopping malls. I can find everything I want, have something to eat and also have fun without having to go all round the city. Everything is there, under one roof!

Suggested Answer Key

An extreme shopaholic will love the malls in Kyiv. You can grab a bite at a fast food restaurant at Ocean Plaza. Bowling alleys, waterparks and cinemas are great fun for the young at heart. At the heart of Kyiv you will find Globus. Malls have come a long way since they first started. Shopping at the mall is a great way to find everything you want under one roof.
