My Home Town

I'm Svitlana from Vinnytsia and I'd like to tell you about my home town. It was founded as a small settlement on the picturesque banks of the Southern Buh River in 1363.

The history of this area is closely connected with many Ukrainian heroes such as Bohdan Khmelnytskyi, Ivan Bohun and Maksym Kryvonis. Sections of a high brick town wall, several churches and cathedrals as well as many homes have survived from olden times and attract visitors from many parts of our country. Tourists also like visiting the museum of famous Ukrainian writer Mykhailo Kotsubynskyi (1864-1913). The small white house where he lived with his family is in the centre of Vinnytsia.

Nowadays Vinnytsia is the main city of the Vinnytsia region, one of the 25 regions in Ukraine. It is situated in the central part of the country. The total area of Vinnytsia region is about 16,000 square miles. The population is about half a million people. The main rivers are the Southern Buh and the Dniester. We also have nearly 50 small rivers and 2,300 lakes. Our rivers and lakes are full of fish like carp, pike, perch and catfish. So come and enjoy fishing!

The factories and businesses of Vinnytsia produce chemicals, cars and motor parts, radio and TV equipment, building materials, furniture, and food products. The fertile soil of the region is perfect for growing vegetables and fruit. The main crop is sugar beet.

I like the quiet streets and green parks of my home town. But the biggest attraction for me and all my friends is the Singing Fountain. It's a new 3D digital musical fountain which is the largest in Europe. The evening water show is amazing. More than 500 underwater lights produce different images on a huge water screen. Will Vinnytsia be your next holiday destination?
